Technical Information

Features

Absorption Range: 350 Hz to 8000 Hz
Acoustic Class: B | (aw) = 0,85

Recycled PET absorption- Class 1 product according to the OEKO-TEX® Standard 100.

This product is available in the following Fire Rates:
FG | Furniture Grade
FR | Fire Rated

PRODUCT COMPOSITION:

Aura F - Absorber | Suede Fabric Finishes (FG)
- Suede acoustic Fabric
- Sound PET acoustic core - Euro Class B

Aura F - Absorber | Felted Fabric Finishes (FR)
- Felted Acoustic Fabric
- Sound PET acoustic core - Euro Class B

Available Option: The PET used in this product is in the standard white finish. A black PET option is available upon request.

* The PET core is a material made entirely from recycled PET plastic, that undergoes an environmentally-friendly transformation process into the non-woven acoustic core we use in this panel.

To keep this process as efficient as possible, the thickness of the product may vary slightly (±3mm).

Dimensions:

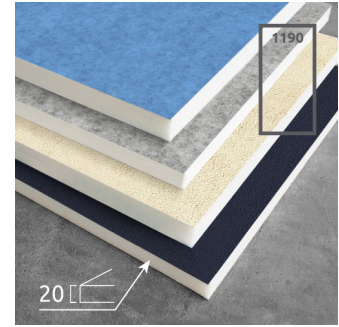

FG - SF | 595x1190x20mm | 1.02 Kg
FR - GP | 595x1190x20mm | 1.02 Kg
FR - TT | 595x1190x20mm | 1.0 Kg

Aura Absorber is designed for environments that require a discreet, durable, high-performance solution. Aura is designed to have the maximum effect as possible with minimum interference in terms of design and practicality.

The most common ocean pollution, PET plastic bottles, can be recycled into a hard wearing flexible acoustic material with exceptional performance. Aura is made from a 100% recyclable high-performance PET core, available in a range of fabric finishes.

Aura Absorber can be used as drop ceiling tiles, or installed on walls and ceilings using standard panel installation systems or adhesive.

Aura F is available in two sizes, and in two different thicknesses: 20mm for more discreet applications, and 40mm when high performance is required.

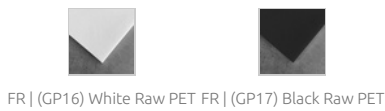

Product finishes

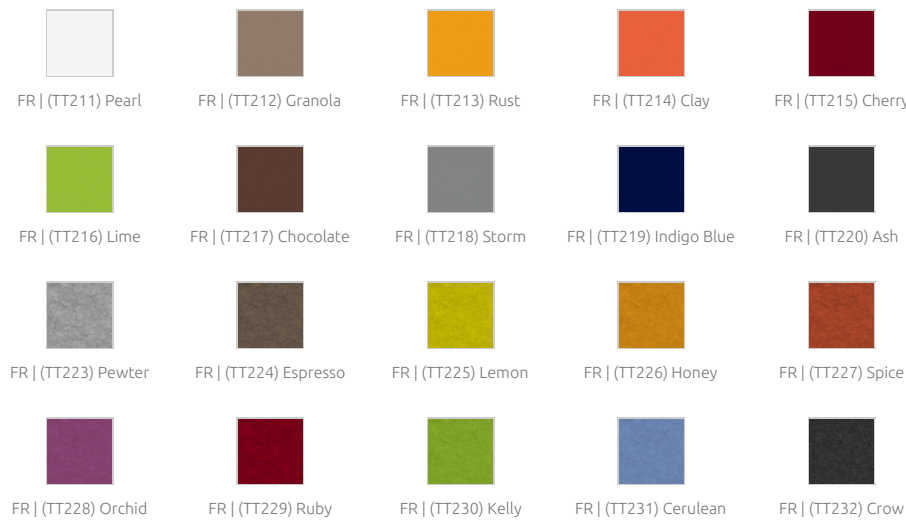

(FG - SF) Suede Fabric Finishes

(FR - GP) Glazed PET Finish

(FR - TT) Felted Fabric Finishes

Purpose

- RT reduction
- Flutter echo control
- Improving speech intelligibility
- Effective broadband absorption

Recommended for

- Office meeting room
- Conference room
- Open workspace
- Lobbies
